The information contained within this report and/or any other advice relating to the application and end-use is given in good faith and is based on Euro Polymers best and current knowledge/ experience of our products when properly stored, handled and applied within normal conditions in accordance with Euro Polymers recommendations and training. The information only applies to the application(s) and product(s) expressly referred to within the relative bespoke specification supplied prior to this projects commencement. In instances of change in the parameters of the application, such as changes in substrates and/or in case of different applications consult Euro Polymers Technical Support Department prior to using the nominated Euro Polymers products highlighted. The information contained within this report does not relieve the user of the system from testing Euro Polymers products for the intended application and purpose. All orders are accepted subject to our current terms and conditions of sale and within our delivery parameters. Applicators/approved contractors must always refer to the most recent issue of our Product Data Sheets for the product concerned, copies of which will be supplied upon request.

Check List Item	Observations	Comments/Recommendations
