

New Work Project for Morgan Sindall

Belmont Roofing is the number one name of choice for Industrial and Commercial clients as well as main contractors, surveyors and architects throughout East Anglia since 1959. A company name recognised throughout the industry for quality and professionalism for over 50 years. Norwich has been the home of Belmont Roofing throughout this period and is conveniently based to service contracts both large and small throughout all reaches of East Anglia and surrounding areas. With in-house teams of CAD roof designers and draughtsmen, we can deliver projects on time and on budget offering a full comprehensive service from initial design to completion. By remaining independent from all manufacturers, we offer a wide range of specialist roofing systems designed for each client based upon their budgets and requirements and can provide best value for money. Being approved Contractors for all leading manufacturers, our clients have the peace of mind in knowing their work is guaranteed and supported by the manufacturer and, where required, by an insurance company.

Multi-Discipline Projects

When it comes to multi-discipline projects, Belmont Roofing is the number one choice for many main contractors and developers as well as industrial and commercial clients. With a drawing office team of CAD designers and draughtsmen, experienced multi-skilled estimators, contracts managers and

skilled operatives, Belmont offers a one stop building envelope solution from design right through to completion. There is no delay in waiting for external support meaning our projects are delivered on time and on budget. Every time. Morgan Sindall have experienced this service from Belmont Roofing for many years. Says Paul Arthurs, Belmonts' Director "We are always pleased to work closely with Morgan Sindall. They are one of the few Main Contractors who demonstrate loyalty to the sub-contractors who helped them at estimating stage by refusing to go back out to market once the contract has been awarded. They only invite tenders from sub-contractors who have met their stringent quality & safety criteria and are recognised as an Approved Contractor. This strong company ethos enables us to put the time and effort in to provide best quality options at estimating stage to help them secure business in the knowledge that our efforts will be rewarded if our quotation is of commercial interest. A typical multi-discipline project completed by Belmont Roofing with Morgan Sindall team is Anglian Ruskin University Chelmsford. The Engineering Building involved Kingspan KS2000 RW to the roof with Kingspan KS600 MR + KS9000 MR wall cladding. The taller BIC Building involved using both Kingspan Topdek and Sarnafil single ply over cut-to-falls insulation board to the flat roof areas. The wall cladding was Kingspan KS900 MR fixed vertically
